

DIRECTIONS

ANIMAL EYE ASSOCIATES is located in Kirkwood, Missouri in the Green Tree Shopping Center, at the southwest corner of the intersection of Woodlawn Avenue and Manchester Road. The center is immediately east of the Suntrup Ford Dealership. The main businesses within the Green Tree Center are 24 Hour Fitness, St. Louis Bread Company, and Oberweis Dairy. Our sign is on our front window, which can be difficult to see. We are located next to The Eleven Mile House Restaurant.

FROM I-270 Exit I-270 at Manchester Road East (Exit #9). In approximately 2.4 miles you will cross the intersection of North Kirkwood Road (Lindbergh Blvd). We are 2 stop lights east of the intersection, on the right, in the **GREEN TREE CENTER**.

FROM I-64 Exit I-40/64 at the Lindbergh Blvd exit (Exit #28). Go south on Lindbergh, approximately 2.3 miles, to Manchester Road. Make a left at Manchester. We are 2 stop lights east of the intersection, on the right, in the **GREEN TREE CENTER**.

FROM I-44 Exit I-44 at the Lindbergh Blvd exit (Exit #277). Go north on Lindbergh Blvd. Approximately 2.7 miles, through the city of Kirkwood, to Manchester Road. Make a right. We are 2 stop lights east of the intersection, on the right, in the **GREEN TREE CENTER**.

ADVANCEMENT IN KNOWLEDGE

Continued advancements in knowledge, instrumentation and techniques for diagnosing and treating eye diseases in pets have made it difficult for the family veterinarian to have all the equipment and expertise necessary to deal with uncommon or complex ophthalmologic problems. As a result, when your veterinarian encounters a problem requiring special knowledge, skills, or equipment; wants a second opinion; confirmation of a diagnosis; or advice on how to proceed with a difficult case, he or she will refer your pet to a veterinary ophthalmologist.

Animal Eye Associates is a veterinary ophthalmology referral practice, in the St. Louis area, that provides specialized veterinary services limited to the diagnosis and treatment of companion animal eye diseases. With the exception of CERF examinations, we only see patients who have been referred by the family veterinarian. When coming to the clinic, please bring all drugs that have been prescribed for the eyes, along with a list of medications being used for other conditions. After each examination, a report is sent to your veterinary clinic keeping them up to date as to the progress of your pet.

BIOGRAPHY

BEN W. JOHNSON, D.V.M. DIPLOMATE ACVO

Dr. Ben W. Johnson graduated from the University of Missouri-Columbia School of Veterinary Medicine in 1981. After practicing general small animal medicine for 5 years, he completed a three-year residency program in comparative ophthalmology at the University of Illinois-Champaign and stayed one extra year as an assistant professor.

In 1989, Dr. Johnson successfully completed the examination for board certification through the American College of Veterinary Ophthalmologists and was granted Diplomate status.

Dr. Johnson established Animal Eye Associates in 1990. Dr. Johnson has written more than 15 scientific articles and has presented a number of scientific papers. Dr. Johnson has provided consultation services to numerous organizations including CHAMPS, Support Dogs, Missouri Wildlife Rescue, the St. Louis Zoo, and World Bird Sanctuary.

He has delivered continuing education presentations to local, regional, and national veterinary medical associations
